#### DESIGN NOTES

#### DEVELOPMENT NOTES

Navigation ARIA roles would be indicated for all links  
Build toggle to turn off CSS & JS flags in any browser

#### ACCESSIBILITY NOTES

Skip to main content  
Browser focus indicator is present  
Navigation ARIA roles would be indicated for all links  
(Content) Purpose of links is determined by text alone

#### TESTING NOTES

Disable CSS & JS and test page (Firefox)  
Visit all links in facet to confirm visited states

- Selected facet one
- Facet label two with a very very very long label
- Facet label three
- Facet label four with two lines of copy
- Facet label five

---

- Selected facet one
- Facet label two with two lines of copy
- Facet label three
- Facet label four
- Facet label five

## DESIGN NOTES

Component will fill 100% of parent DIV  
Color contrast of type on color blocks  
Create comp to show line wrap  
(Content) determine character count limit at 320px wide

## DEVELOPMENT NOTES

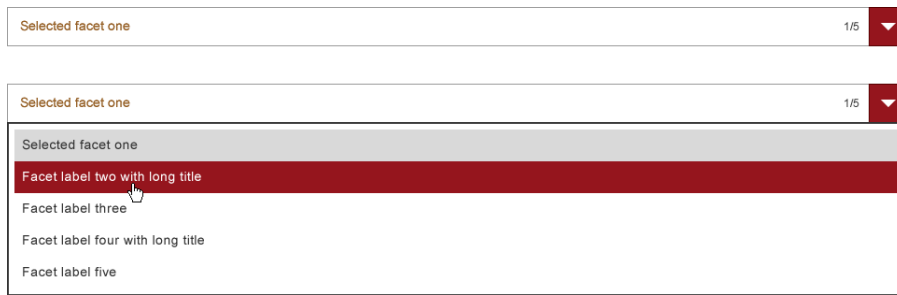

## ACCESSIBILITY NOTES

Type needs to be able to scale to 200%

## TESTING NOTES

IE 7/8 with JS turned off

## DESIGN NOTES

New comps that have native drop menu

## DEVELOPMENT NOTES

Drop down form name & label

Needs more research on stylized drop downs from accessibility

## ACCESSIBILITY NOTES

Standard ARIA roles need to be applied to stylized drop down

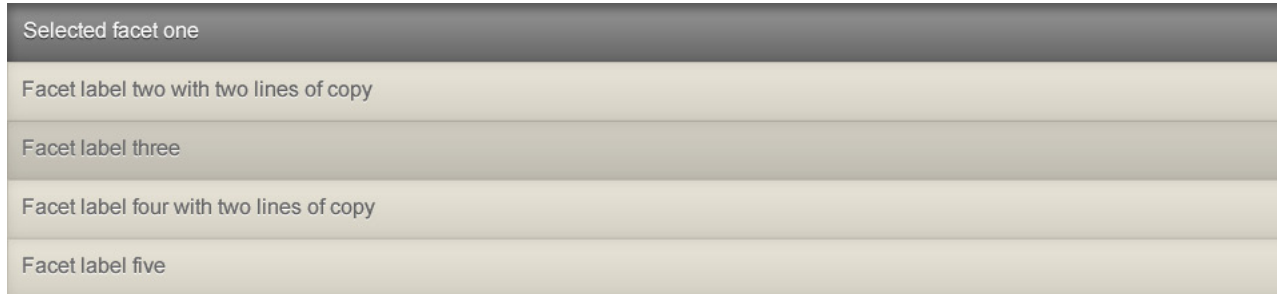

Consider native drop down

## TESTING NOTES

IE 7/8 with JS

320 px

## DESIGN NOTES

## DEVELOPMENT NOTES

## ACCESSIBILITY NOTES

Text sizing for form elements  
Contrast  
Keyboard focus indicator (tabbing)

## TESTING NOTES

Modern browsers

## ORGANISM: The smallest element that can be added to a page in TeamSite

### NOTES

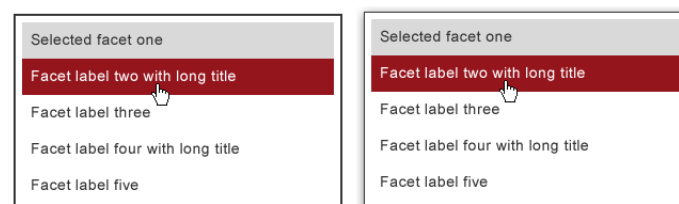

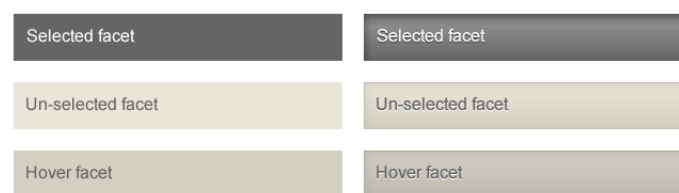

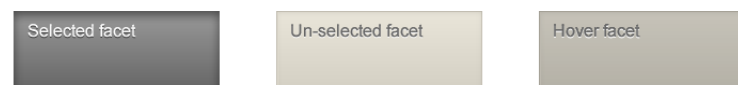

Facet text size shrinks to 12px when the text in one of the facets would break to 4 lines

Facet bar presentation changes to a dropdown when the 12px text on one of the facets would wrap to 4 lines

Height & width should be set on the organism

Margin should be handled at the template level

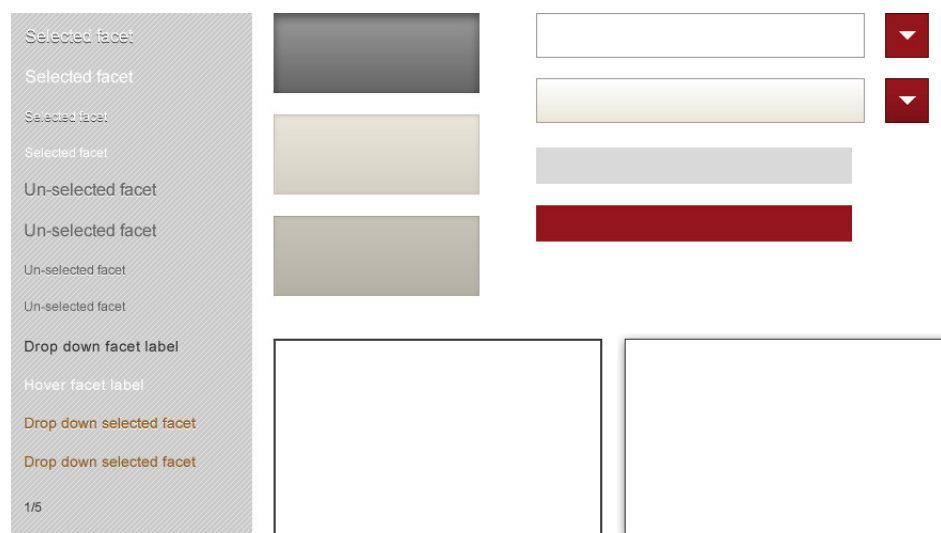

## COMPLEX MOLECULES: Contain groupings of simple molecules

### NOTES

Padding should be set at the complex molecule level

## SIMPLE MOLECULES: Contains only atoms

## ATOMS: Elements that can not be broken down any smaller
